His Message

Sometimes life just doesn't work out the way we plan.

Worse, it can be downright harsh, filled with dramas and difficulties that test us at our very core.

John is a lawyer, life coach and mission consultant who empowers people to build a better tomorrow.

He shares the story of his awakening, from the epiphany that changed his life to the illness that nearly took it, along with his excruciating journey to peace through it all – and the lessons he learned that can help others avoid the pitfalls that befell him along the way.

His goal is to help people find hope, strength, and direction to meet the challenges that get them down and hold them back.

"John is ready to take you to the place you came here to find. The approach is easy on the heart and the simplicity is profound."

- Darryl Schoenstadt, Phoenix, AZ

"Very few teachers today have the insight and wisdom of John Dennison - his thoughts and ideas are truly new and enlightening."

- Gabriel Lawson, Monument, CO
